Guigon was engaged in chal-lenging voters when arrested, and Wise, who is the leader of the Coalitionists, was devoting himself

to the work of getting the colored vote polied. Returns from twenty countles and cities in the State do not show a gain or loss to either party, although the vote has changed in several instances, former Demacratic counties electing Republican delegates and vice versa.

GORMAN'S GRIP REMAINS UNBROKEN. RING CANDIDATES ELECTED-BEPLATERS FROM WASHINGTON EMPCIED INTO THE STATE.

, OF TELEGRAPH TO THE TRIBUNE. ]

BALTIMORE, Nov. 8 .- The Gorman machine will continue to rule Marylanda while longer. Although at 10 o'clock to-night few returns are in from the State, it is known by the Democratic majority in Baltimore that the election of the Ring Democratic State ticket is assured by about 10,000. This may be cut down by the heavy Republican vote in Westem Maryland, but definite returns from those mountain districts will not be received till to-morrow. There are 117 members of the Maryland General Assembly on joint ballot. There were 19 Republican members in the last Assembly, and the Republicans to night claim a gain of 2 and possibly more. The ticket is long, and there has been so much scratching that the returns from the State will be late. The Kuights of Labor opposition to Jackson, the ring candidate for Governor, was not near so pidable as they had promised. The appointment of Senator Gorman in the Baltimore and Ohio directory a week before the election, intended to intimidate the thousands of workingmen at the Mt. Clare Baltimore and Ohlo shops, had its effect, and many ratirond Knights of Labor were afraid to vote against the ring candidates. There are about 11,000 Knights of Labor in Baltimore city, one-third of whom are Republicans. So well did the smoothtongued Knights who were bought over by Gor-

man do that work that it is not believed that over 1,500 Democratic Knights of Labor voted the Republican ticket. The result, so far as known, throughout the State clearly demonstrated that in Maryland at

least the labor vote cannot be depended upon in a party issue. Despatches from points in Southern Maryland say that hundreds of repeaters from Washington were worked in the country districts. Georges County borders on the District of Columbia, and repeating was carried on extensively at nearly every polling place in this county. Last night Washington was emptied of all the Democratic "toughs" and disreputable characters, they being shipped over into the adjacent counties of Maryland. It is reported that "Gene" Higgins had a hand in this exodus from Washingeon to Maryland.

The bottest fight in the whole State was in the IIId Legi-lative District, comprising the southwest wards of Baltimore. There was some crooked work as usual in the Seventeenth Ward, which is controlled by the notorious "Jim" Buzy, whose station-house record is about the longest of any "tough" in the town. Thunks to the keform League, however, there were several hundred dead men's names not voted on this time in this ward. Fritz Buckheimer in the Second Ward piled up the usual Ring majority. In this and many other wards the colored voters were intimidated by the king challengers and in many instances frightened away from the polis.

challengers and in many instances frightened away from the polis.

In Southern Maryland and on the Eastern Shore the same methods were practised. Hundreds of colored men were prevented from voting or tricked into voting the Democrate ticket.

The contest on the Constitutional Convention question was share. Gorman has made desperate efforts to carry this scheme by which he wants to strengthen the macaine in Maryland.

The Police Commissioners ordered that Independent Democratic tickets would not be allowed on the windows at the polling places, and many ticket-holders with the Independent tickets were driven from the polls.

The proprieter of a notorious "dive" here took a gang of rufflaus to Cockevsville, Baltimore County, and after voting them there and "raiding" the polls, brought them to the city and voted them again.

OVER 20,000 MAJORITY FOR THE REPUB-LICAN STATE TICKET.

OMAHA, Nov. 8 (Special).—The day was pleasant up to

3 p. m., when a heavy rain set in all over the State. The election was much quieter than was expected in view of the fact that there were three tickets in the field-Republican, Democratic and Prohibition-and tha the campaign was a vigorous one. In Omaha the day was the quietest ever known, all saloons being closed by order of the Mayor for the first time in the

closed by order of the Mayor for the first time in the history of the city. The Prohibitionists show decided gains in the country districts and small towns, but cut a very little figure in Omaha, Lincoln and the larger towns in the State.

Maxwell, Republican candidate for Supreme Court Judge, is elected by a majority of from 20,000 to 30,000. The Republican candidates for Regents of the University are also elected by nearly the same majority. There has been much secratching everywhere, especially in Omaha, and the result here as to many local candidates is doubtful.

#### THE PROHIBITION AMENDMENT LOST.

AN ESTIMATED MAJORITY OF 7,000 OR 8,000 AGAINST THE PROPOSITION.

PORTLAND, Ore, Nov. 8.-A steady light rain fell ill over the western part of the State to-day. The oute was light in the interior, all interest centring in Prolibition. The amount of votes in this city was full. The estimated vote of this city will be 4 to 1 against the amendment. Returns late this afternoon indicate that the Prohibitionists have overestimated their strength in the interior towns, and that the Prohibition amendment is defeated by 7,000 to 6,000 majority. The other two amendments, namely, to change the time of election and to allow the Legislature to fix the salaries of State officers, are supposed

E. F. SEARLES, A BOSTON ARCHITECT, THE BRIDE GROOM-A QUIET WEDDING.

Mrs. Mark Hopkins, the widow of the well-known Call-fornia millionaire, was married yesterday at an hour in Trinity Chapel to E. F. of Baston. Immediately after the ceremony had been performed the happy couple took the 10:30 a. m. train for Boston. The marriage was a social surprise. Only a few intimate friends had been told of the engagement and they were pledged to secrecy about it. The wedding was a quiet one and was witnessed by only a few friends and relatives. CROWDS AT THE UPTOWN HOTELS. THE FIFTH AVENUE AND THE HOFFMAN OVERRUN WITH ANXIOUS PATRIOTS.

On election day hotel resorts like the Astor House, where City Hail politicians ordinarily gather; the Metropelitan, which is near Police Headquarters; and even the Morton House, where Sheridan Shook attracts local Republican workers like a magnet, are dull compared with the Hoffman House and the Fifth Avenue lictel, which are the committee headquarters. There was scarcely on bour in the day that there was not a crowd of excited patriots in the Hoffman House cafe, lobby and bar-room. Most of them were anxious admirers of Colonel Fellows. They debated nothing but the contest over District-Attorney, admitting generally that they thought the State had gone Republican and being quite glum in anticipation of defeat. Reperis came in that a large Labor vote had been cast for Post, whereat the Fellows men looked crestfallen, as they had expected to influence some votes in that direction by money. ## CONDITION OF THE NEVADA BANK.

THE CAUSE OF GEORGE L BRANDER'S DEPART-\*\* SAN FRANCISCO, Nov. 8 (Special).—When the recent collapse of the California wheat deal came. George L. Brander, the vice president of the Nevada Bank was charged with responsibility of enormous loans to Dres bach and Rosenfeld, the two wheat brokers who were supposed to represent the bank. Brander didn't deny the charge, but his friends declared flatly that he was being used as a scapegoat, and this theory was borne out by the fact that, though he was retired from the vice-presidency of the Nevada Bank, he was made president of the Nevada Assurance Association, controlled by the onanza millionaires. About three weeks ago it was rumored among Brander's friends that he was going abroad, and a few days later he departed with abroad, and a few days taker in departure received family. Now it is rumored here that Brander received \$32,000 for keeping silence and shouldering the responsibility for the wheat deal. THE DEMOCRATIC PLURALITY SMALL,

MEN CHOSEN TO VARIOUS OFFICES-THE SENATORS AND ASSEMBLYMEN.

The canvassing of the election returns in Breeklyn was begun as soon as the polis closed at sunset, 4:49 p. m. The Republican election district captains kept a close watch of the work of the canvassers. A suspicion was excited early in the day that an effort would be made in some wards at least to count the votes cast for Clancy, the Labor candidate for Mayor, for Chapin, the Democratic candidate, as the balwere printed in the same place and were made exactly alike. The corners of the ballets were cut off so that they all looked just the same. It was feared that the Democratic inspectors would bunch them tegether and thus try to nt Labor votes for the Democratic candidate. Warned of this care was taken that the trick did not succeed.

HOW THE VOTES WERE COUNTED. State, Senate, Assembly, County, Judiciary, City Officers, City Judiciary, Aldermante and Ward Officers. The returns as fast as canvassed were carried from the polling places to the nearest police stations and then transmitted by telephone to Police Headquarters, where they were read off to the police officials in one room and to newspaper reporters in another. The first returns were received before 6 o'cleck and indicated a normal Democratic plurality on the State ticket. It was evident that Colonel Grant had been badly "cut" in the Republican wards, and the vote for Henry George seemed to be drawn more from the Republicans than from the Domocrats, unless the former voted for Cook instead of Grant.

Early in the evening great crowds gathered in front of the Republican and Democratic Hall square where election returns were displayed. The only places where election figures were received indeers were the Everett Assembly Leons, where the force; the Brooklyn Tabernacle, where a fair was in pretheatres, where the returns were read between the acts

The only case of difficulty is the canvassing of the vote occurred in the VIIIth District of the Tweifth Ward, where the caevassers were found to be too drunk to can vass the vote properly. The Republican inspectors is sisted that the number of ballots be compared with the poll list, and there were found to be more votes cast than there were persons resistered. The canvassers made so much disturiance that they were opered by the police, who took charge of the ballots. Application was easies to the Board of Elections to ap-point new canvasers. The vote was canvassed later. The following table gives the vote complete on the State ticket, with a few districts missing:
